The VDG – News

Brief Profile ... The Association of German Glassblowers, as a non-profit, internationally active professional association, publishes the VDG - News.

Originally conceived as an association publication to inform our members, VDG News has evolved over time. It is the only magazine dedicated to hot glass working in German-speaking countries thus an important source of information for non-VDG members as well.

The overall concept and design of VDG-N are constantly being developed.

Each issue of the VDG-N focuses on a core theme and interdisciplinary topics. This allows us to appeal to technical glass apparatus makers, artistic glassblowers, and anyone interested in glass. This makes us attractive and increases our reach. Like the VDG-N itself, the editorial staff of VDG, is entirely volunteer-run.

Subjects ...

The general spectrum of each issue can be easily illustrated:

Technology

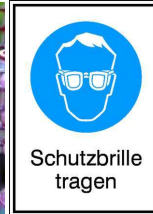

Education

Art

Safety

Glass - Events

Information ...

Publication: quarterly (March, June, September, December)

Print Run: 750 copies per issue

Distribution: Worldwide, but mainly in German-speaking countries (Germany, Austria, Switzerland)

A copy of the VDG-N is often read by several colleagues and passed around in companies and schools. It also remains with readers for a long time as a reference work and can be found in some public libraries

Design: Media Corta, Ulm / email: studio@media-corta.de

Print: Karl Elser Druck GmbH, Mühlacker / email: info@elserdruck.de
